The eleventh round opened with a rapid exchange of blows. Both men apparently meant business. Staggering under a terrific upper cut from Fitzpatrick, Cahill clinched.

They broke at the command of referee, and in doing so Cahill slipped and fell forward, but did not fall down. Fitz was quick to sieze the opportunity and landed a vicious upper cut on Cahill's jaw. The latter's seconds claimed a foul, and after a minute's hesitation the claim was allowed, and the fight awarded to Cahill.

Fitzpatrick's seconds protested vehemently, claiming that Cahill was not down when struck. But the referee remained firm.

Its Founder's Nephew Compelled to

Banker James M. Brown Elected to Take His Place.

There is trouble in the Society for the Prevention of Cruelty to Animals. In fact there has been a regular revolution on a small scale, the result of which bas been that young Henry Bergh, who has been President of the Boclety since the death of his uncle a year ago, has been forced to resign his office, and James M.

Brown, of the firm of Brown Brothers, the bankers, has been chosen to succeed him. This all took place on Monday night at a meeting of the Board of Managers, but it was kept secret until to-day.

Of the twenty-three members of the Board thirteen were present. They were: Elbridge T. Gerry, Rev. Dr. Morgan Dix, W. C. Schermerhorn, Alfred Wagstaff, N. M. Beck-with, Charles Lanier, James M. Brown, Parke Godwin, George G. Haven, Hornes Russell, Edward A. Hammond, James Grant

Nilson and George E. DeWitt, jr.

Nilson and George E. DeWitt, ir.

The trouble has been brewing for some months past, and, according to all reports, originated in a general feeling of dissatisfaction with the management of the affairs of the Society by its young President.

The by-laws gave him absolute authority, and it is claimed that he has abused this power in many instances, although none of the members of the Board who were seen by the reporter would specify any particular offense in this regard.

At any rate they changed this troublesome by-law at a recent meeting and Mr. Bergh, being shorn of his power, was given the alternative of acting as a mere appendage to the Board of Managers or resigning.

His resignation was before the Board on Monday night. It was unanimously accepted, and to the election of Mr. Brown there was not a dissenting vote.

It seems, however, that the ousting of Mr. Bergh is by no means as agreeable to the

Mr. Bergh was found at his house, 429
Fifth avenue, thus morning by an Evening Fifth avenue, this morning by an Evening World reporter.

He seemed to feel keenly the slight which had been put upon him by the Board of Managers, and showed considerable emotion during his conversation with the reporter.

'I have had opposition in the Board of Managers for some time past," he said, 'and it grew so strong that I finally resolved to resign rather than insist upon the carrying out of my policy.

sign rather than insist upon the carrying out of my policy.

"There was an undestanding that nothing should be said about the matter, and now the story comes out and in such a way that it places me in a very unfortunate position."

"Then you feel that this opposition to you was unjust?"

"Well, I think I have been doing the best I could for the Society for the last twelve years, and in refraining from saying anything at the present time I am making a great sacrifice of my personal feelings."

at the present time I am making a great sacrifice of my personal feelings."

"As to the causes of the difficulty between myself and the members of the Board. I might say a good deal, but I regard the interest of the Society as of far more importance than my personal feelings, and I feel that it would hurt the Society if I started a dispute, which would be almost endless,"

"You had some trouble with Superintendent Charles H. Hawkinson, dud you not?"

"Yes, I removed him from his position some time ago, but reinstated him at the request of the Executive Committee."

"Do you think he had anything to do with forcing your resignation?"

"Is there any truth in the statement that friends of Messrs. August Belmont and E. D. Morgan. have inspired this opposition to you in the Board on account of the Society's prosecutions for rabbit baiting and docking horse's tail'a."

"I hardly think there is; at any rate I would not believe it unless I had stronger evidence than mere suspicion. The trouble goes a great deal deeper than that and if my lips were not sealed by the understanding that no one should say anything about what took place at last Monday's meeting. I would explain it fully."

Beveral members of the Board were called upon, but they were all reticent with regard to the real cause of the trouble.

It was gathered, however, that Mr. Bergh had given offense to the older members of the Board by taking important action on many occasions without consulting them. As a result, thus dissatisfaction took the form of open opposition, and while the members of the Society favored Mr. Bergh, and showed it at a recent meeting, when they out-voted the members of the Roard of Managers present in supmeeting, when they out voted the members of the Board of Mamagers present in sup-porting a proposition favored by Mr. Bergh.

Chances of the Bill in the Assembly Daily Improving.

IMPROVAL TO THE EVENING WORLD, 1

ALBANY, March 13. -THE EVERING WORLD'S Children's bill was reported favorably to the Assembly this morning by the Judiciary Committee, on the motion of Assemblyman George F. Roesch, of New York, who has taken a vigorous interest in this measure of humanity.

Robert Ray Hamilton, who introduced the bill, will take a prominent part in the discussion on the floor of the House. His influence will be felt.

The bill has been made a special order for next Tuesday. The amendment as reported follows the phraseology as suggested by Tun Evenine WonLD, with the addition of a clause providing that action under its provisions shall be taken within thirty days of the commitment

of the child. The bill gives parents and children what they never had before-the right of appeal from the decision of a police magistrate-and mpowers the courts of higher jurisdiction to copen and rehear the case, and right any in-

ustice that may have been done. Some members of the Committee were in favor of allowing a longer time for action uder the bill, but a compromise was finally made setting the limit at thirty days. It will probably be found advisable in the future to extend this limit, but for the present it is not likely to be opposed by the advocates of the

measure. A tremendous amount of influence was brought to bear upon the Committee to force

an adverse report. But the bureaucrats were beater

The boy stubbornly insists that they are mintaken.

Even those who do not believe that he murdered the clerk think that he is lying when he denies buying the hatchet.

Their theory is that he bought it for some man or woman, and that the person he bought it for perpetrated the horrible butchery.

cumstances.

In view of the discovery made by an Evening Wonld reporter that Wechsung feared
violence at the hands of an outraged husband, whose wife he had an intrigue with,
many people believe that the husband is the
murderer, and that the boy was his accom-

woman, and if so, was only too ready to sid her in any way.

Krulisch was seen in the Tombs by an Energy World reporter this morning, who asked him jecosely:

"Are you ready to confess yet, Willie?"

He pressed a very serious looking young face against the iron-barred door of his cell, and responded:

"I have nothing to confess. I did not buy the hatchet. I did not murder Wechsung. He and I were always the best of friends."

He declared that he had never seen any woman calling on Wechsung at the drug store, but the dead clerk did receive many letters, which he burned as soon as he had read them.

"When did you see him have a letter last?" asked the reporter.

"When did you see him have a letter last,"
asked the reporter.

"Tuesday before he was killed. He got
one in the first mail that morning and read it
through quick. Then he tore it roughly up
and threw the fragments in the stove."

"Did you ever mail any letter for him to
people in this country?"

"No. All the letters I mailed were addressed to Germany. He used to mail some
letters himself, though, and those, I guess,
were for some one here."

were for some one here."

"What makes you think so?"

"Because he would generally write a letter after receiving one of those he used to burn and then he would go out and mail it himself," he concluded.

Capt, Warts said this morning that his men were still at work on the case, but nothing new had transpired.

He refused to tell what progress they had made in the search for the blonde woman. Wechsung's fair friend.

Krulisch was arraigned in Supreme Court, Chambers, before Judge Lawrence on the writ of habeas corpus procured by Lawyer Purdy.

With reference to the character of the evidence which was adduced yesterday, being Assistant Corporation Counsel Wickes's relation of Philipsen's confession of bribery, the Commissioners of Accounts say that it was certainly not the best evidance, but it was offered by the Corporation Counsel; and while it was simply bearsay, there was much in the circumstances attending and preceding the confession to make it particularly strong.

When Philipsen was examined in the first week of the inquiry, Mr. Wickes posed rather as a defender of the Comptroller and other officials of the Finance Department.

Philipsen accordingly looked apon him as friendly to him and to the Finance officials, and it is thought that this was the reason that he related to the Assistant Corporation Counsel his secret regarding the payment of
